

keyestudio Breadboard Power Module+830-Hole Solderless Breadboard+65 Jumper Wires Package

SKU:KS0312

This package includes a 830-hole breadboard , a keyestudio breadboard power module and breadboard jumper wire packed of 65. You can freely add other components on the breadboard to design your own circuit.

Keyestudio Motor Wheel Kit for Smart Car

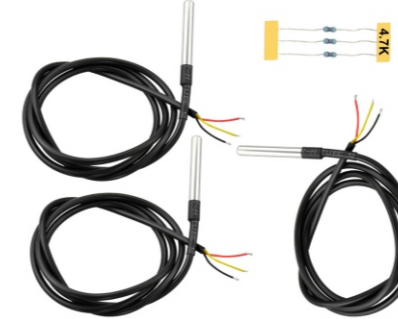

SKU:KS0324

The kit also includes four wheels, four holders, eight M3*8 screws, eight M3*30 screws and eight M3 nuts for fixing, as well as eight 200mm connector wires for wiring. All of these fixed parts are flexible for you to mount them well on the car.

keyestudio 18B20 Waterproof Temperature Sensor + 4.7K Resistor (3PCS)

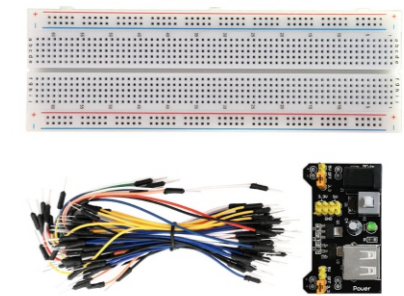

SKU:KS0329

This kit includes three DS18B20 temperature detector sensor and three 4.7 K resistors. Keyestudio DS18B20 temperature detector probe adopts the brand-new and original DS18B20 temperature sensor chip.

keyestudio 830 Tie-Points Breadboard + Breadboard Wire Pack of 65 + Breadboard Power Module

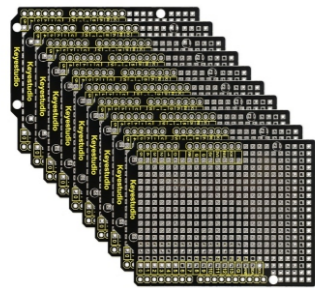

SKU:KS0332

This kit includes a breadboard power module, a 830 Tie-Points breadboard and breadboard wire pack of 65pcs. This breadboard power module comes with 5V and 3.3V DC Output PIN, easy for external use.

Keyestudio UNO Prototype Circuit Breakout Board PCB 10PCS

SKU:KS0322

This kit includes 10 PCS of keyestudio UNO prototype circuit board PCB. After solder the pin headers of 2.54mm pitch on the through-holes of PCB, you can seamlessly plug it into UNO R3 controllers. It also comes with four 3mm fixed holes for you to tightly mount it.

keyestudio Keyestudio Dupont Jumper Wire 20CM Package (M-M, M-F, F-F)

SKU:KS0325

This kit includes three kinds of 20cm 40pin DuPont jumper wires, male-to-male, female-to-female and male-to-female respectively. They are produced in many colors, so you can easily pick up the right one when lots are plugged.

Keyestudio Tie-Points Solderless Breadboard 3PCS

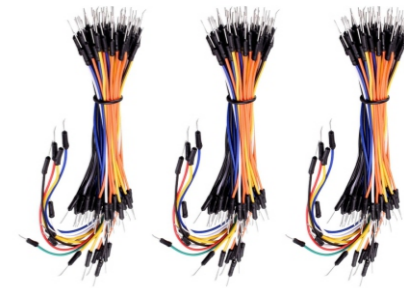

SKU:KS0330

Great for quickly plugging parts together without needing a soldering iron. By plugging in jumper wires and component leads you can build simple circuits on a breadboard very quickly.

keyestudio Breadboard Jumper Wire Pack of 65 (3PCS)

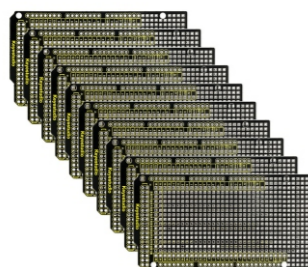

SKU:KS0333

M/M breadboard jumper wire pack, totally 65 pieces in several types of length and many colors. These flexible jumper wires are basic component that connects two or more devices. They are produced in many colors so you can easily pick up the right one when lots are plugged.

keyestudio MEGA2560 Prototype Circuit Breakout Board PCB 10PCS

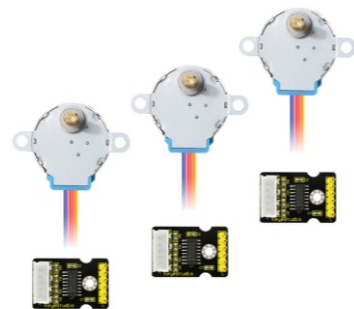

SKU:KS0323

This kit includes 10 PCS of keyestudio UNO prototype circuit board PCB. After solder the pin headers of 2.54mm pitch on the through-holes of PCB, you can seamlessly plug it into UNO R3 controllers. It also comes with four 3mm fixed holes for you to tightly mount it.

Keyestudio Stepper Motor Drive Board + 5V Stepper Motor Kit (3PCS)

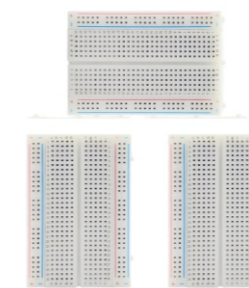

SKU:KS0327

This kit mainly consists of three deceleration stepper motors (28BYJ-48) and three stepper motor(5-wire 4-phase) driver boards (ULN2003). Stepper motor driver board mainly adopts ULN2003 chip.

keyestudio 400 Tie-Points Solderless Breadboard 3PCS

SKU:KS0331

This is a white solderless breadboard. It has 2 power buses, 10 columns, and 30 rows - a total of 400 tie in points. This half size breadboard is good for small projects. It has a standard double-strip in the middle and two power rails on both sides.

Keyestudio Box-Packed 140 Breadboard Jumper Wire Bundle 3PCS

SKU:KS0334

Included with this kit are 14 various lengths of 22AWG wire - 3, 5, 8, 10, 13, 15, 19, 21, 23, 26, 51, 77, 103, and 126mm - 10 pieces of each.

keyestudio UNO Board+400 Tie-Points Breadboard +Chassis+Breadboard Wire Pack of 65+USB Cable

SKU:KS0337

This kit includes a keyestudio UNO board, a transparent 400-hole breadboard, a black chassis, 65 pieces of breadboard jumper wires and a blue USB cable. For more detailed use, you can check it as follows.

Keyestudio Reprap Stepper Driver A4988 Kit (5PCS)

SKU:KS0378

This stepper motor driver is powered by A4988, a DMOS microstep driver with converter and over-current protection. It is available in full, half, 1/4, 1/8 and 1/16 stepping modes to operate bipolar stepper motor with output drive performance up to 35 V and $\pm 2A$.

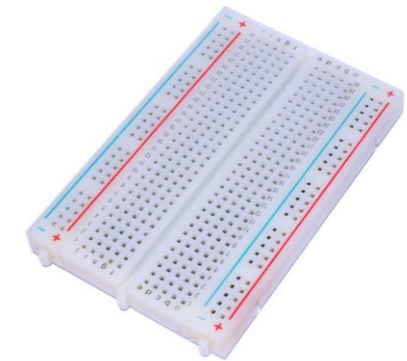

keyestudio Breadboard 830 Point Solderless

Two Choices:

White PCB Breadboard(SKU:60320025)
Transparent Breadboard(SKU:60320046)

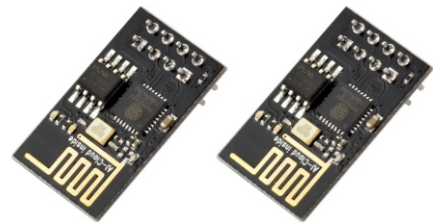

keyestudio 400 Point Mini Solderless PCB Breadboard

Two Choices:

White PCB Breadboard(SKU:60320001)
Transparent Breadboard(SKU:60320024)

Keyestudio 8266 WIFI Module 2PCS

SKU:KS0339

The package includes 2pcs of ESP8266 WIFI module. It is an ultra-low-power UART-WiFi pass-through module with industry-leading package size and ultra-low power technology. It is specially designed for mobile devices and IoT applications.

keyestudio 3D Printer DRV8825 Kit (5PCS)

SKU:KS0379

This stepper motor driver is powered by DRV8825. This driver has a same pin and interface as our A4988 stepper motor driver, so it can replace the A4988 driver. It is a high-powered stepper motor driver.

SYB -120 Breadboard 700 Point Solderless PCB Breadboard

Five Colors:

White(SKU:60320003), Red(SKU:60320004),
Blue(SKU:60320002), Green(SKU:60320016)
Transparent Breadboard(SKU:60320005)

keyestudio Dupont Line Jumper Wire for Arduino

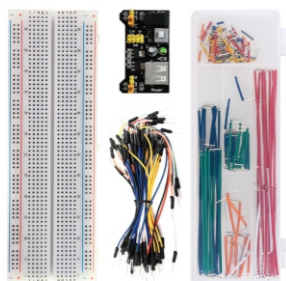

Three Kinds of Length

10cm, 20cm, 30cm

Three Kinds of Specification

Male to Male, Male to Female, Female to Female

keyestudio 830 Breadboard + Breadboard Power Module + Jumper Wire Kit

SKU:KS0340

This kit includes a breadboard power module, a 830 Tie-Points breadboard, breadboard wire pack of 65pcs, and 140 jumper wire bundle.

Keyestudio Blue 9G Servo 3PCS

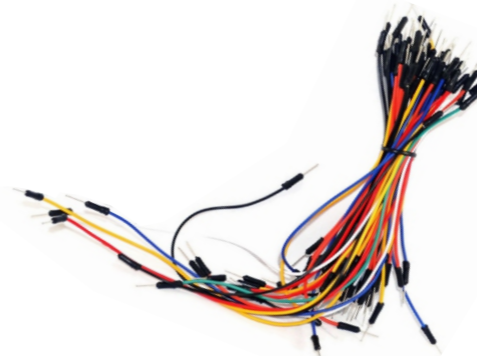

SKU:KS0326

The servo has three interfaces,distinguished by brown, red and orange line (different brand may have different color). Brown line is for GND, red one for power 5V, orange one for signal terminal (PWM signal).

keyestudio M-M Jumper Wire for Breadboard

(SKU:10120001)

Breadboard Dedicated Line / Breadboard Jumper Wire

(SKU:19720009)
